Bluetooth Connection

When the speaker is turned on, you can find "HiFi Square" in the bluetooth list on your bluetooth device and touch to connect it.

If 'HiFi Square' is not found on your device, press turn off the power of the speaker to reset bluetooth, or turn off and turn back on the Bluetooth function on your device, then search on your device again and find "HiFi Square" to pair it.

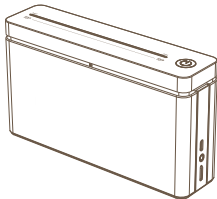

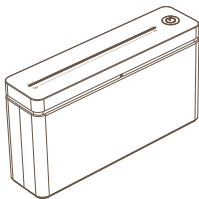

TWS

TWS pairing Mode

TWS Mode

At TWS mode (true wireless stereo), you can pair up two speakers to have a greater stereo sound.

1. TWS mode is only available when you have two HiFi Square Speakers.
2. Turn on both speakers
3. Quickly double press the power button on one of the HiFi Square Speaker until you hear a tone "Dong" (please make sure none of the speakers has been paired with any bluetooth device first before the TWS Pairing operation)
4. If successfully paired, a single tone "Di" is played. Then A quick white flashing light indicates the main speaker. The other speaker is vice speaker (the white light will stay on without any flashing).
5. Connect audio device to main speaker and play.
6. When turning off the main speaker, the vice speaker will be automatically turned off too.
6. If powered turned off and back on again, the two speakers should reconnect automatically. If they do not, repeat steps above to set up again

This product is covered under one year manufacturer warranty starting from the date of purchase. Within the warranty period, any repair service or components replacement will be provided for free.

Warranty does not apply to the following circumstances:

1. Product failure due to improper use, misuse, drops, abuse, alteration, faulty installation, power line surge or modification
2. Product failure due to acts of nature such as natural disaster, fire, flood, or casualty.

1. Avoid this device from accidental drops, physical shocks, and any long exposure to the sun or rain.
2. Keep this device in a clean/dry environment of 0°C –40°C in temperature. The ambient humidity of the device should not exceed 75% so as to avoid corrosion damage. Do not approach the device to a heat source such as fire.
3. Never dispose of any electrical or electronic waste in general circulation. Collect and dispose of such waste safely and separately.

Failure to follow these safety instructions may result in unexpected damage of this device. The company is not responsible to any result caused by violation of safety instructions above.
